

## Competency Checklist: Wound Care-Staging, Treatment and Documentation

**Indicators of  
Performance  
Level  
Summary**

<b>Date:</b>			
<b>Nurse's Name:</b>			
<b>Evaluator's Name:</b>			
<b>Competency:</b>		<b>Wound Care-Staging, Treatment and Documentation</b>	
<b>How Met</b>		<b>Level of Competency</b>	
L	Review Labs	1	Below Expected Standards
V	Verbalization/Discussion	2	Fully Meets Standards
T	Test	3	Well Above Standards
D	Demonstration		

The Nurse demonstrates skills and competence in the following:	How met	Level of Competency			Evaluated by:
		1	2	3	
<b>Wound Identification</b>					
Differentiates between pressure ulcers, vascular ulcers, non-penetrating wounds (abrasions, lacerations) and surgical wounds					
<b>Staging</b>					
States and demonstrates how to determine if a wound is pressure related					
States and demonstrates how to differentiate a Stage I from an area of redness					
Differentiates a Stage I from a deep tissue injury					
Identifies a Stage II/ partial thickness wound					
Identifies a Stage III wound					
Identifies a Stage IV full thickness wound					
Assesses wound, wound bed and wound margins					
<b>Treatment</b>					
Identifies the appropriate treatment for Stage I pressure ulcer					
Identifies appropriate product choices for healthy shallow and deep wounds					
Identifies the appropriate product for a necrotic wound					
Demonstrates clean field set up and clean technique for dressing changes and wound irrigation					
Demonstrate measurement of wound bed (length, width, depth) and margins					
Demonstrate how to assess and measure undermining and tunneling					
<b>Documentation</b>					
Type/stage of wound					
Type, color, amount, and odor of any drainage on the dressing					
Description of wound bed					
Measurements of identified wound					
Condition of surrounding skin including approximation of edges					
Treatment and dressing application
