

# Complex Case One Pager

## Behaviors Barriers

- Restraints
  - Clarify the need for restraints
- Sitter
  - Clarify the need for sitter
- Psychotropic medications
  - Reason for PRN?
  - Why utilizing PRN Haldol or Ativan to manage behavior
    - Can we have a progressive medication plan
- Fall Risk
  - 2 rails is what SNF's have to adhere to
- Wandering
- Felon/Sex Offender

## Payer/Cost Barriers

- ❓ No Payer
- ❓ Insurance Authorization
- High Cost Medications
- ❓ High Cost Medications
- ❓ Extensive Wound Care
- ❓ Extensive PT/OT

## Clinical Care/Communication Barriers

- Updated current notes from acute hospitals
- Frequency/Dosage/Duration for all IV medications
  - Need Pharmacy IV orders to include run rate, first dose timing etc..
- Wounds: Stage, care and need for Wound Vac
  - Willing and capable caregivers
  - Continue to ensure we have a clear plan documented on teaching including people responsible to help patient at home

## AMA Risk at every level of care

- HH
- Appointments
- PCP
- Medications
- DME
- Meet patient where they are at as a team
- Notification to partner (Acute/SNF/HH) when AMA happens
- Behavioral Health
